

An independent review of provision for children and young people with speech, language and communication needs in England

Time for change

Bercow: Ten Years On sets out the state of provision for children's speech, language and communication needs (SLCN) in England in 2018.

Currently, poor understanding and insufficient resourcing for SLCN mean too many children and young people receive inadequate, ineffective and inequitable support.

This impacts on their education, employability and mental health.

What needs to happen?

Communication is everybody's business and we all need to play our part. *Bercow: Ten Years On* includes recommendations to government and local leaders, as well as bold calls to action for all those involved in supporting children and young people.
